

# ROTARY FINE

FINE GEL COMPOUND

RUPES ROTARY FINE compound quickly removes mild-to-moderate defects and haze while creating a very high-gloss finish. It is the ideal step to follow compounding or to create a wax-ready shine on most paints. Specialized micro-abrasives in the RUPES proprietary blended formula have been developed to remove up-to-P3000 grade sand marks in as little as one step. ROTARY FINE polish, when paired with RUPES rotary fine yellow foam pads, smooths the surface to brilliant shine. For the ultimate rotary polishing experience, pair both the fine pad and polish with the BigFoot LH19E Rotary Polisher to make high-gloss polishing effortless.
