**NIVEUS 4.0** 

# **NIVEUS** Professional air purifier

The new **rupes niveus air purifier** is the optimal solution to have an **excellent air purification** and create a **healthy environment**, increasing peoples' protection. Thanks to its compact dimensions it can be easily installed in several sites.

### RUPES NIVEUS Air Purifier can cover environments up to 120 [m<sup>2</sup>] or 300 [m<sup>3</sup>].

This purifying product **increases** indoor air quality, reducing and capturing micro dust, allergens, bacteria and virus with the purpose of improving peoples' health.

People can be exposed to a **variety of substances** which can lead to harmful health effects. Workplace pollution is defined as the presence of hazardous materials visible and invisible such as **micro dust, bacteria, virus, allergens, vapours and fumes.** 

The main exposure routes are through inhalation , direct contact and swallowing.

# ULPA FILTER GRADE U15 Powerful Brushless Motor

Contaminated air passes through **ULPA filter grade U15** which is made of fine mesh that blocks harmful particles, and an **activated carbon filter** purifies the air before it is released into the environment.

## Filters technical data

Filtering surface (ULPA filter – U15)	until 13 m²
Filtration efficiency	99,9995%
Filter grade	ULPA - U15

Filtering surface (activated carbon filter) until 5 m<sup>2</sup>

## **Brushless Motor**

A **powerful brushless motor** provides high performance to cover wide working environments and an ideal solution to have **maximum energy saving with relevant costs saving.** 

carbon filter

# **NIVEUS 4.0**

Professional air purifier

## NIVEUS 4.0 intelligent display

The NIVEUS 4.0 professional air purifier features an intuitive touchscreen control panel and a customised dashboard that allows you to monitor and manage the device remotely.

On the display and dashboard it will be possible adjust the air flow, see the levels of CO2 and PM2.5 particulate matter in the environment, check the internal temperature and humidity, the status of the filters and when it is time to replace them.

## **CO**<sub>2</sub>

Monitors levels of CO<sub>2</sub> equivalent in the environment, expressed in PPM (Parts Per Millions)

## Indoor temperature

Monitors indoor air temperature to help maintain a comfortable environment

### Indoor humidity

The amount of water vapour in the air expressed as a percentage

# Particulate Matter (PM 2.5)

Microscopic particles as small as 2.5 microns in suspension in the air we breathe. They include smoke, bacteria and allergensi

The screen indicates the status of the filters and warns when it is time to replace them

### Wi-Fi

Filters

Indicates the current status of the connection to the Wi-Fi network

Allergy-Irlendly Quality Tested
